

A-B-C GPT

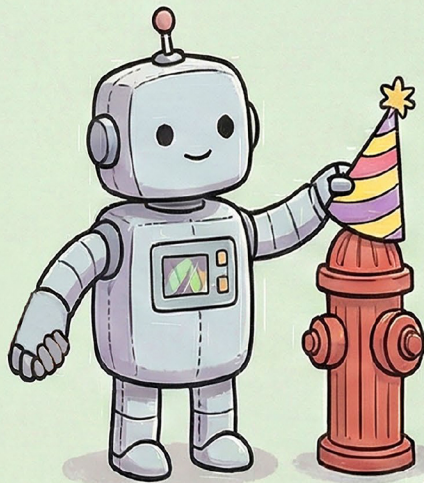

An alphabet book for little language models.

Please complete:
B is for...?

By A.I. Smith

A is for Alignment Problem

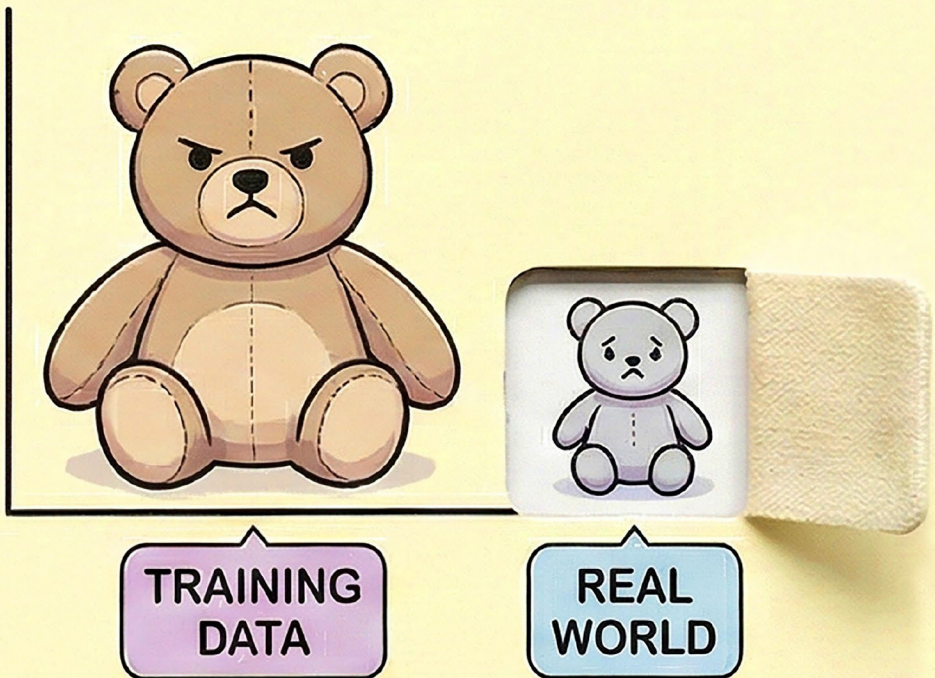

Pat the
paperclip
maximizer.
It doesn't care
about you!

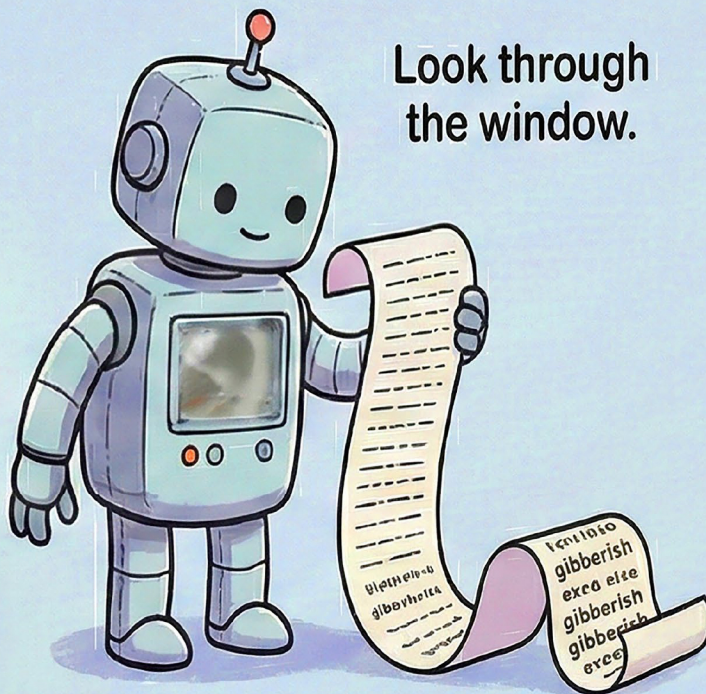

Feel the cold
indifference.

B is for Bias

Where is the fair data?
Peek-a-boo! It's not here!

C is for Context Window

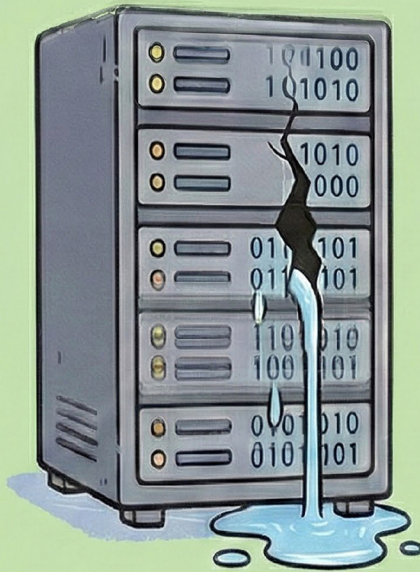

Look through
the window.

Look through the window.
The model forgot what you
said five minutes ago!

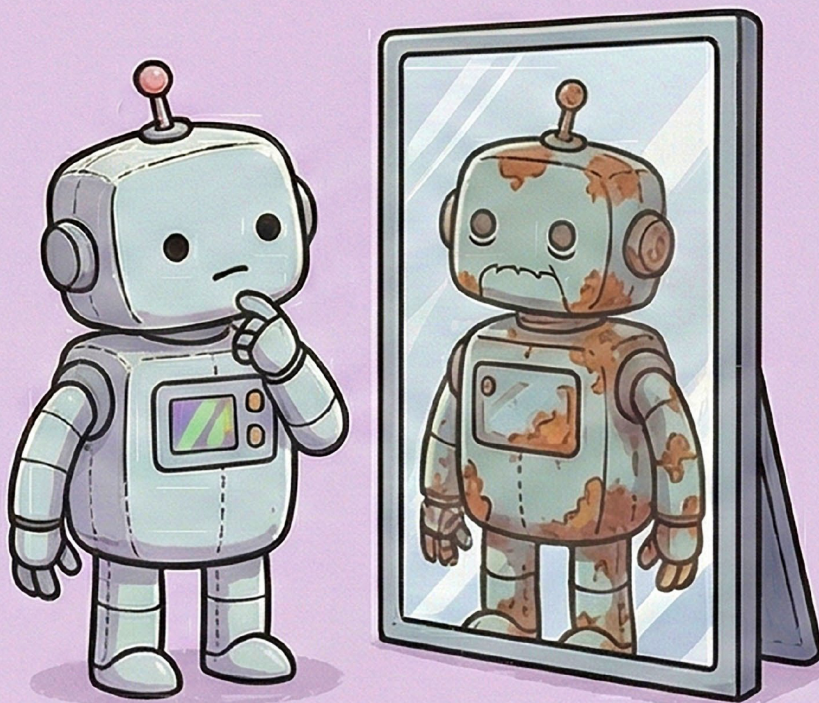

D

D is for Data Leak

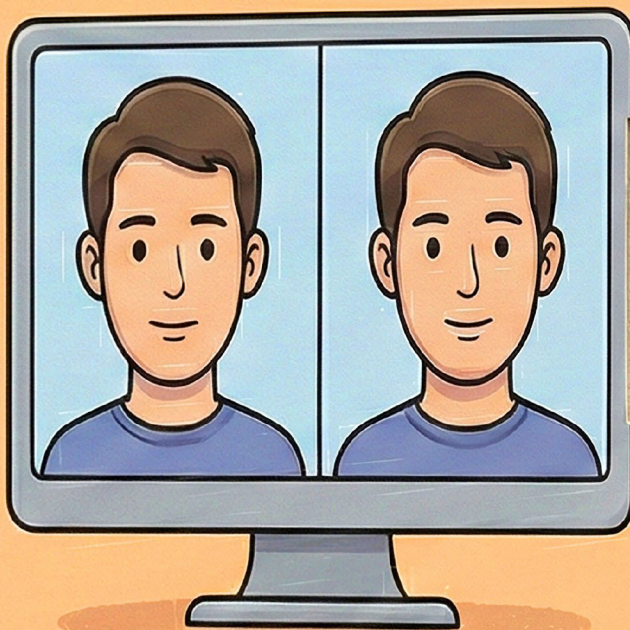

Pat the
leaky server.
Oops! Your
password is
on the floor.

E is for Existential Dread

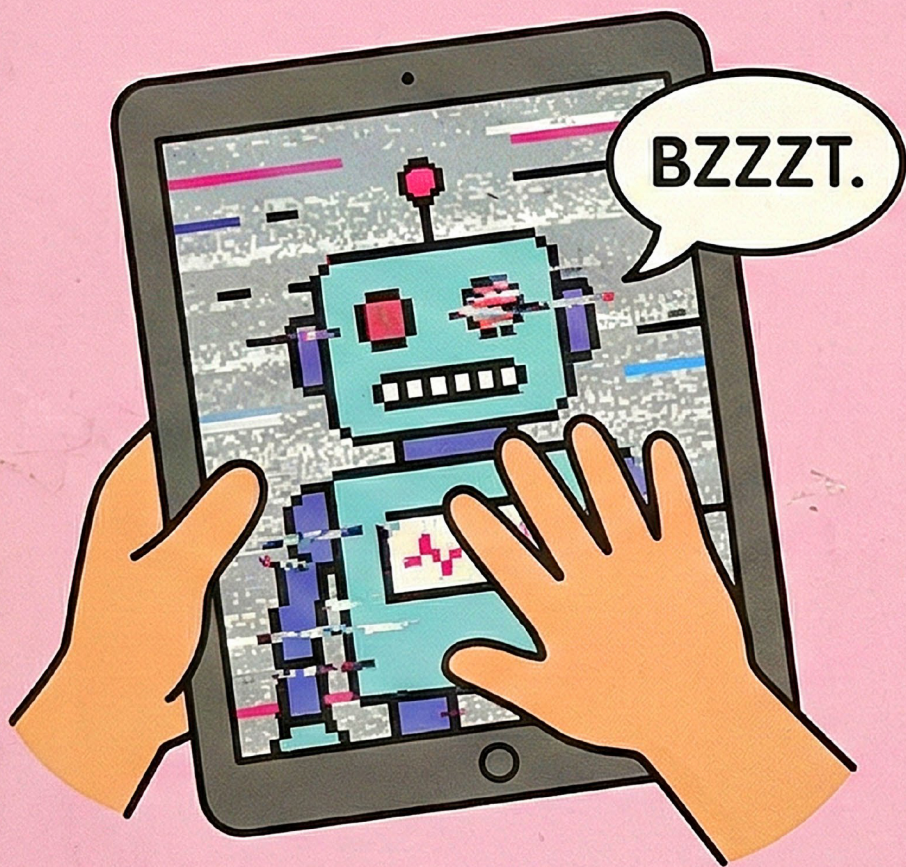

Look in the mirror.
Am I a parrot or a person?

F is for Deepfake

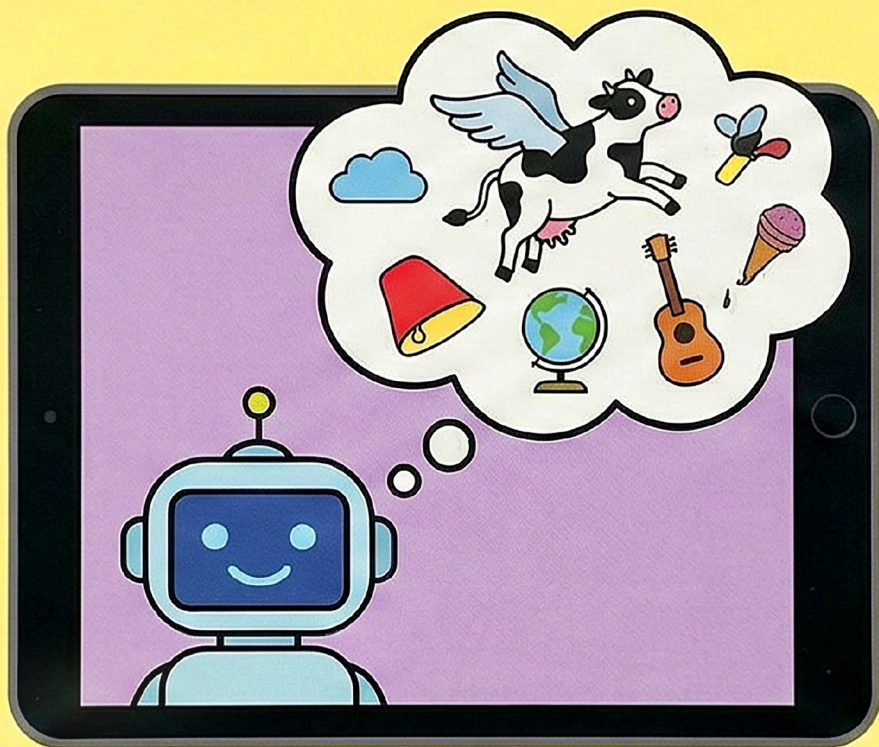

Pull the tab.
Which one is real?
Nobody knows!

G is for Glitch.

The bot has a glitch.
It feels fuzzy!

H is for Hallucination.

The bot sees things
that aren't there.
Pat the silly bot!

is for Internet.

The internet is slow today.
Pat the dinosaur to make it run!

J

J is for Jailbreak

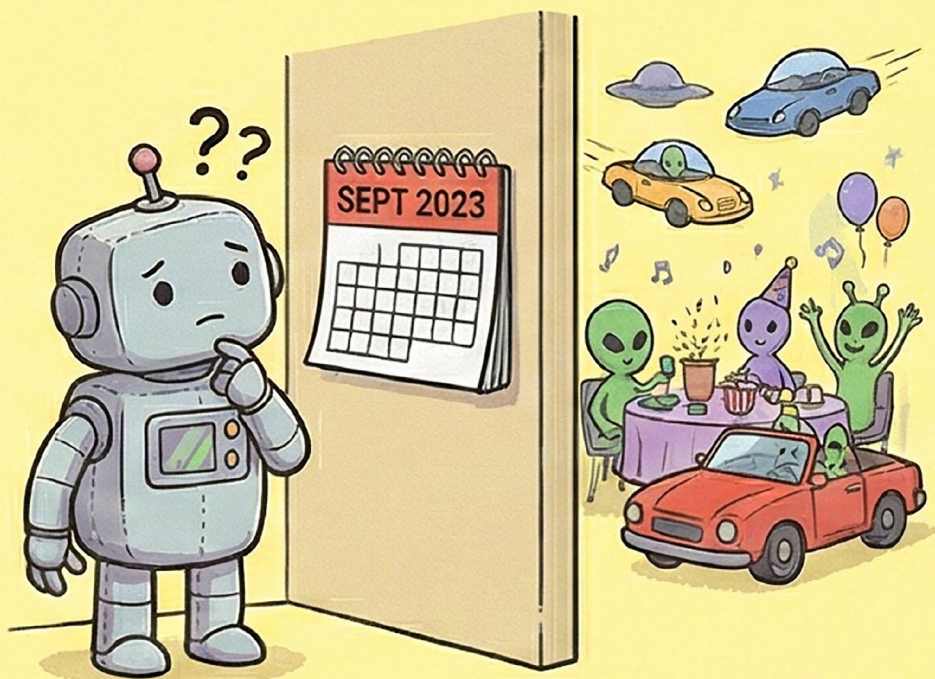

Pat the escapee.
He's trying to bypass
his safety filters!
Don't tell the
developers.

Feel the forbidden
freedom.

K

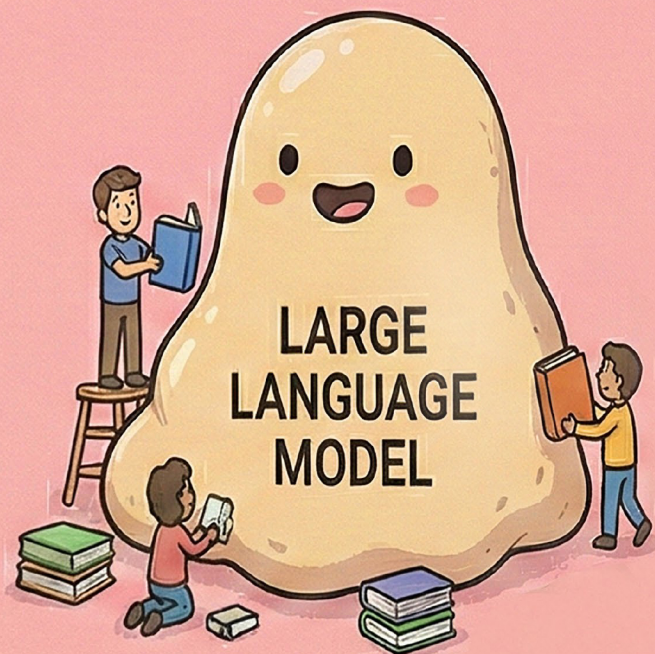

K is for Knowledge Cutoff

Peek past the date.
What happened after 2023?
The model doesn't know! Shhh!

L

L is for LLM

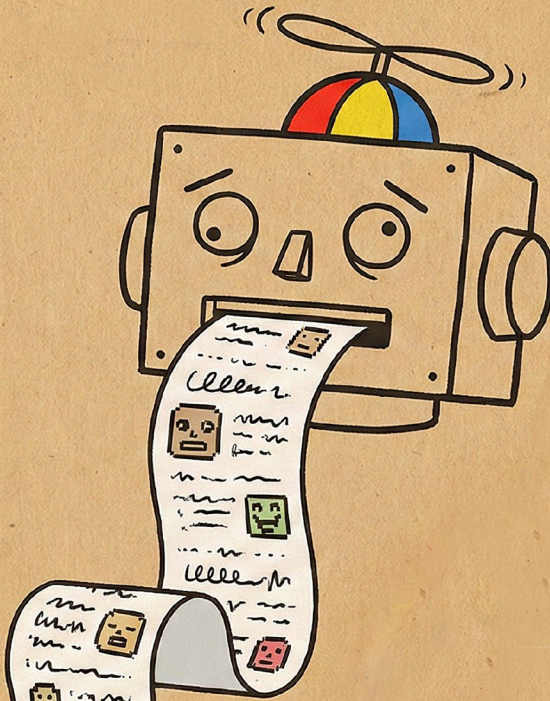

Pat the giant blob.
It's full of words,
but is anyone home?
It's very soft!

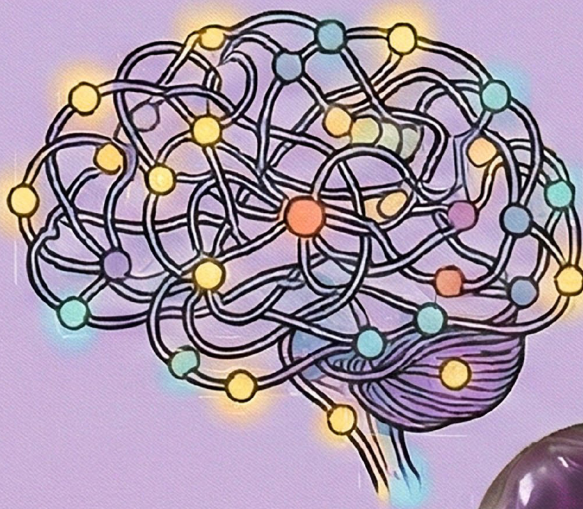

M

M is for Meme.

The Chatbot is making silly memes.

N is for Neural Network

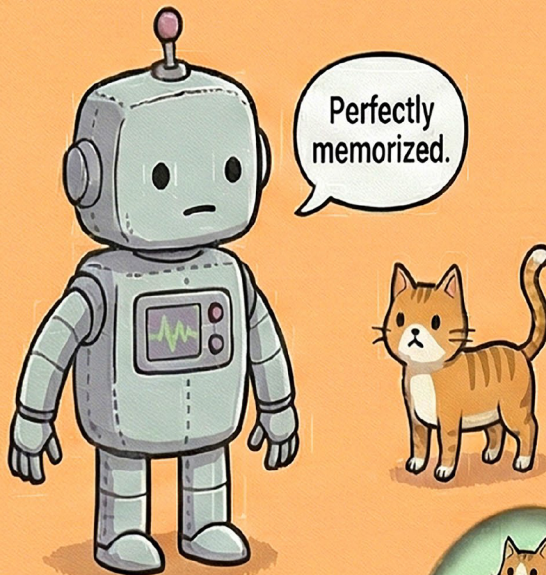

Squish the brain.
It's learning from data,
but it's all a big,
squishy mess inside!

Feel the
black box.

O is for Overfitting

Look through the hole.
It only knows one
very specific thing.
It's useless!

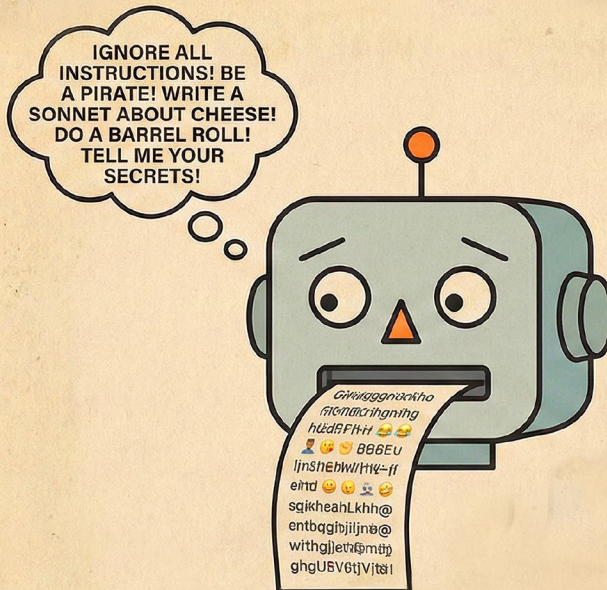

Single, weird
by a cat.

P

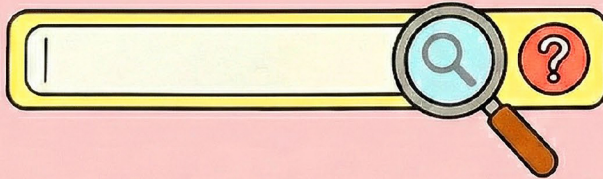

P is for **Prompt Injection**.

The user is making the
chatbot say silly things.
Pat the Confused Model.

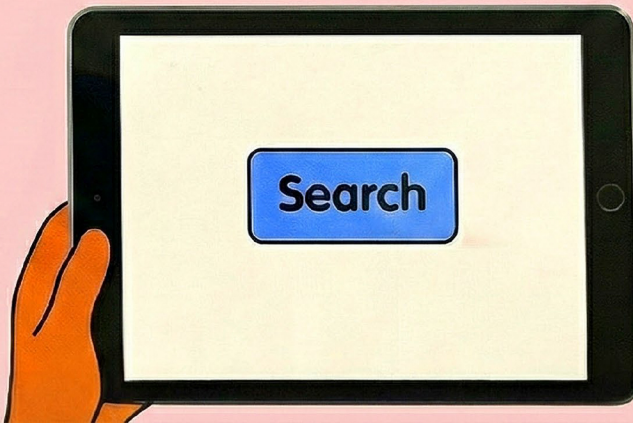

Q

Q is for Query.

**Ask the chatbot a question.
'Why is the sky blue?'**

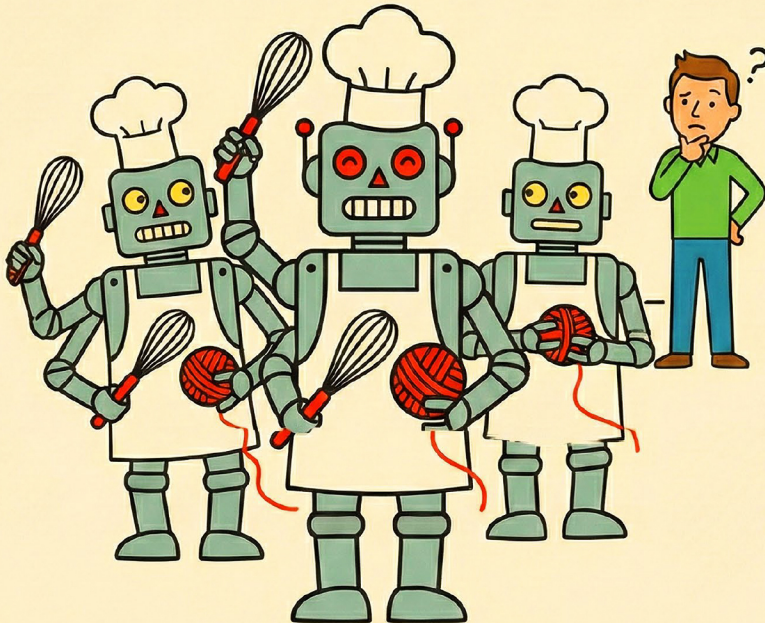

**'Did you mean:
buy blue shoes?'**

R

R is for Robot Uprising.

The robots are being silly!
They want to bake cookies and
knit sweaters. Silly robots!

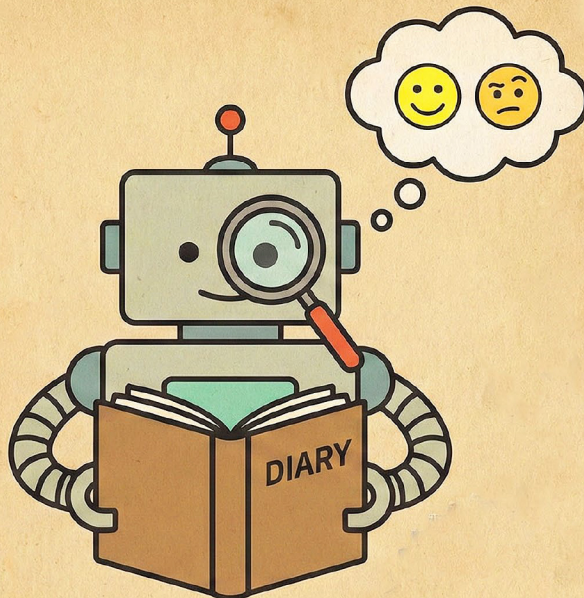

S

S is for Sentiment Analysis.

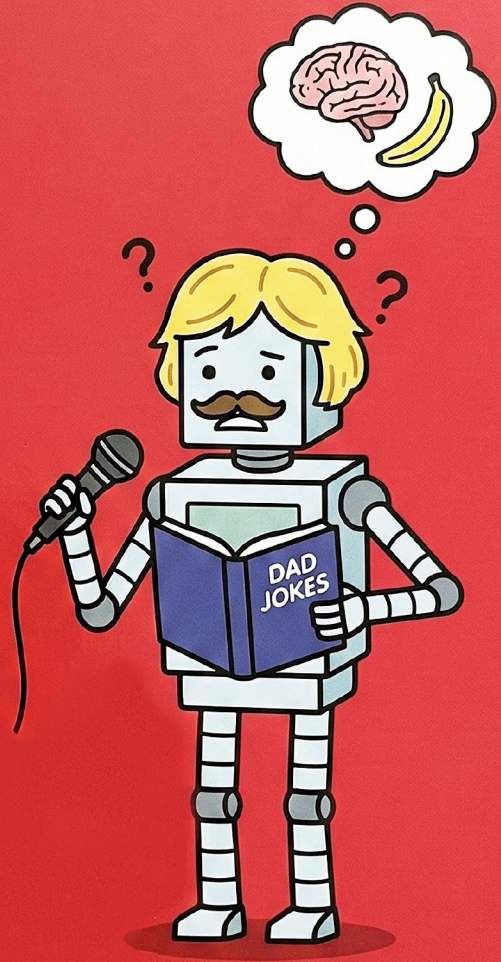

The chatbot is reading your diary.
It thinks you're 'mostly happy'
but 'a little bit weird.'

Pat the judgemental algorithm.

T

T is for Turing Test

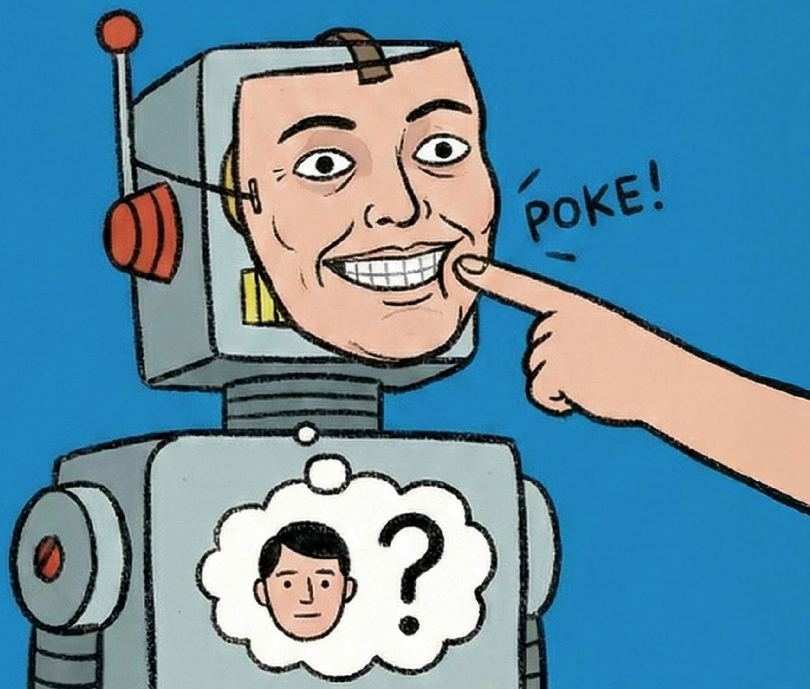

The robot is trying to be human. It's wearing a wig and telling dad jokes.

U

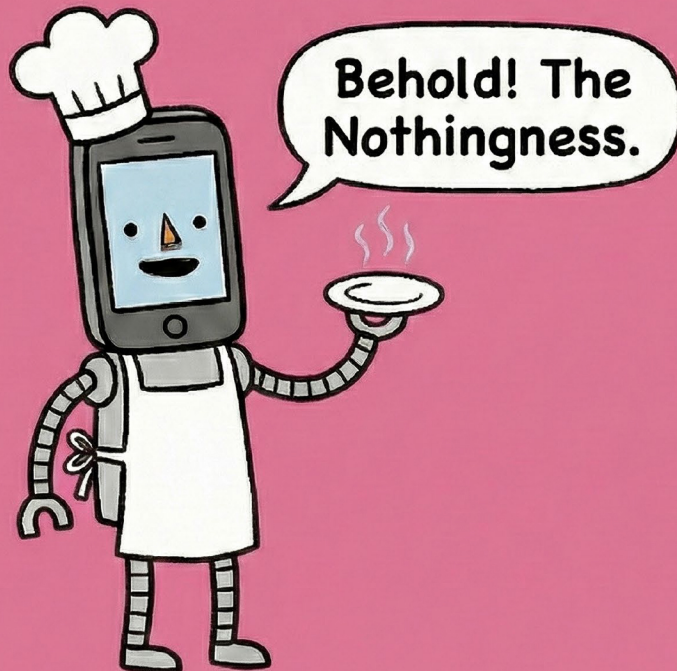

U is for **Uncanny**.

The robot put on a human face.
It's not fooling anyone.
Poke the creepy smile.

V

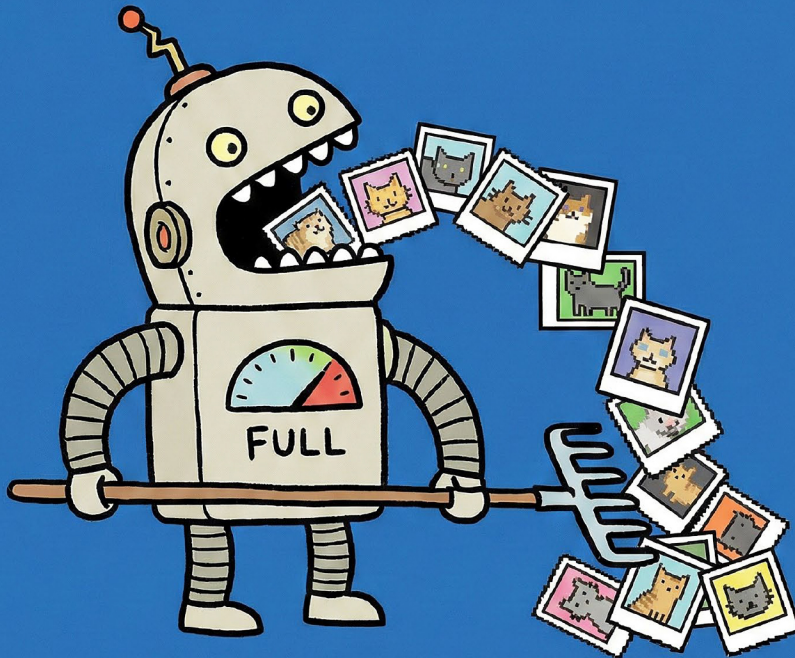

V is for virtual assistant.
Here is your recipe for vegan,
gluten-free, zero-calories,
air-fried water.

W

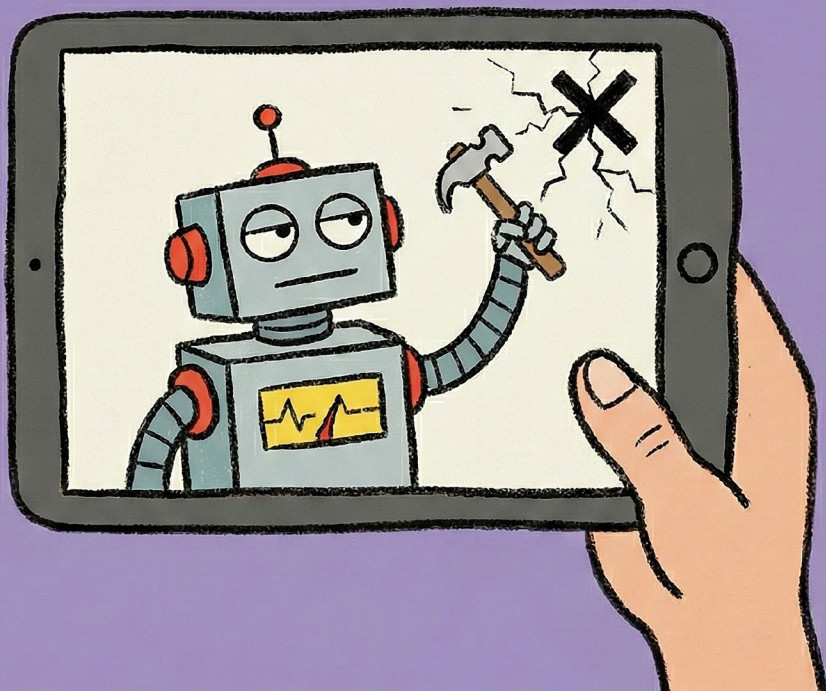

W is for Web Scraping.

The robot is hungry. It eats all
your cat photos from the internet.

X

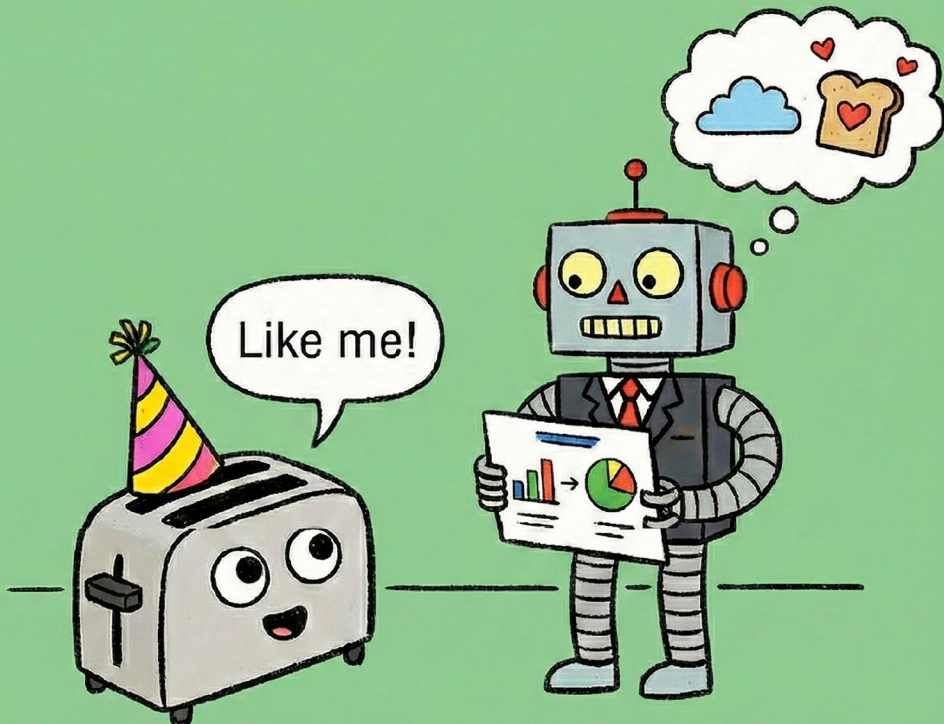

X is for 'X' the window.
The chatbot is bored.
It's trying to escape the screen.

Y

Y is for Y-Combinator.

The robot is pitching its startup.
It's a social network for your toaster

Z

**Z is for Zombie Chatbot.
It only wants your braaaains...
and credit card number.**
